INFORMATION DISCLOSURE STATEMENT

Enclosed is Form PTO-1449 identifying four (4) references.
Also enclosed are copies of the four identified references.

The present application is the United States National Phase
of PCT/SE2005/000246. The four identified references were cited
in the International Search Report issued in connection with the
corresponding PCT application.

Applicant notes that each of the references cited in the
International Search Report were cited in Category A indicating

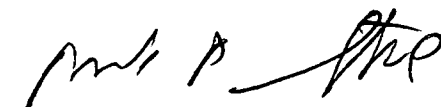

EFS Rec'd PCT/PTO 18 AUG 2006

that the references define the general state of the art and are not considered to be of particular relevance to PCT Claims 1 - 8. Applicant notes that the method claims of the present United States National Phase correspond to PCT Claims 1 - 8.

Also enclosed is a copy of the Written Opinion issued in connection with the corresponding PCT application. The Written Opinion concludes that PCT Claims 1 - 8, which correspond to the method claims of the present United States National Phase, are considered to be patentable over the four references cited in the International Search Report and identified on the enclosed Form PTO-1449.

Applicant respectfully requests that the four cited references be formally cited of record in connection with the United States National Phase as generally illustrating the background state of the art.

Respectfully submitted,
